

11th Grade

Sierra College Visit and Database Training

Friday, March 1st 2019

Overview:

The 11th grade will visit the Nevada County campus of Sierra College on Friday, March 1st, 2019. They will tour the campus and take part in an admissions presentation. Students will visit the College library and take part in a workshop teaching them how to use the library electronic databases to support their research. The day will conclude by meeting with Sierra College students over lunch on campus. The current Sierra College students are also SAEL alumni and will share

their experiences thus far in college and take questions from our students. Students will be transported to and from Sierra College by SAEL approved drivers. We will not be at SAEL for lunch, students should plan to bring a pack lunch with them to school. If a student can not provide lunch please reach out to Mr. Young at ryoung@sierraacademy.net and a lunch will be provided.

***** It will be important that students are at school on time so that drivers can leave promptly and we can be on time for our tour *****
